MALAPASCUA Exotic ISLAND

DIVE & BEACH RESORT

Is located absolute beachfront on the blindingly white bounty beach of Malapascua Island (North of Cebu) which is one of the best beaches in the Philippines. "Exotic" as the local people call the resort can be found within easy walking distance from the main tourist beach but far enough away to give it a secluded, relaxing island atmosphere.

Exotic is the only complete dive resort on Malapascua with its own accommodation, bar and restaurant. We offer 16 local style cottages from budget to air-conditioned rooms and provide 24 hour electricity from our own generators. Our sea view bar is the ideal place to enjoy a beer or your favorite cocktail and Exotic's restaurant offers you a mouth watering menu ranging from salads and sandwiches (made with our own daily freshly baked bread) to Filipino and International specialties. In our coffee corner our baristas can serve you any fresh brewed espresso beverage. The resorts own in-house 5* IDC dive center has a reputation built in an excellent personalized service. By using a unique blend of efficient professional dive service in a personalized relaxing atmosphere our crew is committed to give you an unforgettable exciting dive holiday.

The resort is also known for its beautiful beach garden with its hammocks offering the kind of pacific island paradise you dream about.

Exotic, the first dive shop and Nitrox station on Malapascua, is the local expert since 1997. The first encounters with the famous Thresher Shark and study of its behavior were done by the Exotic staff. Our international staff offers excellent PADI diving education at all levels; beginners can take an introduction to scuba or full open watercourses. We also offer prime dive excursions everyday and are the only specialist in dive safaris to new real frontier dive destination.

Experience the exciting wall diving, admire the beauty of sharks, mantas and other big pelagic species, explore ship wrecks and dive the famous Gato Island a real underwater photographers heaven for macro with the Island's pioneer dive resort.

So if you are looking for a new dive destination or simply somewhere to relax look no further than Malapascua Exotic Island Dive & Beach Resort where good service, good food, great diving and customer care are guaranteed.

Getting There: Maya (jump off point to Malapascua Island) is an 3 to 4 hours drive northward from Cebu City and Mactan International Airport.
